Education is the stepping – stone to success. A child may fumble and fall but we here at the BGESS have taught our children to take life as it comes and be ready to face all the situations in life besides imparting formal academic training. So I would always say Learn from yesterday, live for today and hope for tomorrow.

Mrs. Clara Gomes
Deputy Headmistress

To achieve great things in life you shouldn't only dream or plan but also try to get it. Three mantras of success – ALWAYS AIM HIGH, PUSH YOUR LIMITS, NEVER STOP BELIEVING! It is to decide what's most important to you and then take massive action each day to make it better. The only way to experience the richness of life is to live in an attitude of gratitude.

Coming to school in the morning, speaking to friends, questioning the teachers to gain confidence of knowing the subject, not leaving any chance to have fun, participating in inter and intra school activities, doing fun projects(specially Science) and of course learning a lot of things are the best part of my life. Cocurricular activities ,school tours, IAYP treks and million of classroom memories would be always cherished. The school has given me such amazing friends that it would be too hard to depart from them. Also , the support I got from all the teachers cannot be neglected. I hope I will forever stay connected with all those who were a part of my childhood.

“Educating the mind without educating the heart is no education at all”.- Aristotle
I had joined this school in Class 4 and since then I have kept these words in my mind and tried to work hard. The teachers here have been very helpful. They not only taught me from the books but also, the lessons of life. I have enjoyed a lot here and with a heavy heart leaving this school. Will miss everything here!

At the end o f these 13 blissful years spent in the school as student, I am having the scarcity of words to express my feelings and emotions about my life in School. It had given me all the upcoming opportunities. I have gathered lot of memories over here which I can never forget. School days are the golden days of one’s life. This school has led to my personality development. I am thankful to all my teachers who have instilled self confidence in me taught me to become a good human being. This school also gave me a chance to make everlasting friendship. Memories are said to be life footprints in sand but hey may get washed by sand however these memories will remain to my heart forever.

The BGES is my second home. It is this very place where I have not only found my dreams but learned to work hard enough to shape those into reality. 'Thank you' fails to express my gratitude to all my teachers.
