

THE BGES SCHOOL (ICSE)

2002

2014

These moments have become sweet memories of our lives.

THE BGES SCHOOL (ICSE)

MESSAGE FROM GOVERNING BODY

Shri. Champaklal A. Doshi (President)

We at the BGESESS endeavour to provide an all round development to all the students by imparting education on modern lines with the help of Smart Classes, well equipped Computer labs, an advanced library and so on. We believe in the concept of right education should help the student, not only to develop his capacities, but to understand his own highest interest.

Shri. Pradip Sheth (Member)

The mind is not a vessel to be filled, but a fire to be kindled. These words of Plutarch have been reflected in the training of our students who will be the future citizens of our country. The minds of the children are like clay which are moulded by our teachers here. Stress is not only laid on academics but also to enrich their minds in various ways so that their inborn talent is unfurled. They are taken on educational tours to places of historical interest, class visits are made to the famous landmarks of the city, science exhibitions are organised, literary activities are held so that a child is able to recognise his hidden talent.

Shri. Dinesh Chandra Mehta (Member)

The roots of education are bitter, but the fruit is sweet. Aristotle.

A child may feel cumbersome to cope up with the school curriculum initially but at a later stage realises that the path has been laid for his future development. The BGESESS lays no stone unturned to offer the children the best education with the help of Smart Classes, the most excellent co curricular activities, well-resourced study materials and so on at very affordable rates.

THE BGES SCHOOL (ICSE)

Rashmikanth Sheth (Member)

He who opens a school door, closes a prison. Victor Hugo. Education imparted in school in the proper perspective creates good human beings for a better society and helps in reducing crime against society which has the effect of closing the prison doors.

Nalini ben Parekh (Member)

The highest result of education is tolerance. Hellen Keller. In the light of the above our school inculcates the values of life in children through life skill classes conducted by teachers at various levels to create an open minded outlook.

Shri. Miraj D. Shah (Vice Chairman)

“The future depends on what you do today” has been said by Mahatma Gandhi. The Management, teachers and the senior members of the BGESS make a genuine attempt not only by providing good education to the students but also impart first-rate moral values to them by conducting classes based on psychological needs.

THE BGES SCHOOL (ICSE)

Shri Brij Bhushan Singh (Headmaster)

Man needs his difficulties because they are necessary to enjoy success. APJ Abdul Kalam.

A child faces obstacles at various stages of life and it is with the effort of the teachers that he overcomes it. The school enables the child to face challenges in life and emerge victorious rather than feel defeated.

Ms. Mridula Nagar (Deputy Headmistress)

As Vivekananda rightly said that “ Education is the manifestation of the perfection already in man”, the BGES School makes an effort to expand the hidden talents of an individual and mould it to perfection. This is possible with a highly advanced system of education available here at inexpensive costs.
