Sri Champaklal A. Doshi
President

The BGES School is an amalgamation of competent teachers, state-of-art infrastructure and an experienced and efficient administration. The school came into existence with a vision of creating a safe and secure environment for the kids. While studying at this school, the students are groomed to be confident, articulate and enlightened young citizens of tomorrow. In other words the students will be ready to face the outer world.

Sri Miraj D. Shah
Sr. Vice President

This institution envisages an all around and balanced education based on sound intellectual, physical, moral and social formation. Special stress has been laid on the character formation and development of personality. The aim is to make students erudite, patriotic, law abiding and ceaselessly seeking excellence, with a deep concern for all especially the weak and the poor sections of the society. Whatever you have learned from this institution will enable you to stand in good stead in every situation. It will guide and make your life successful and happy.

My dear students, it is my advice to you all that, do not look back by standing at the threshold of this school. Just look forward and go ahead to see the world, our well wishes are always with you. The world needs more intelligent youngsters. Success will be on your way, just keep something in your mind that be always right in your actions and never forget that truth always wins. Use your power to make others happy and not sad. Never surrender to any bad situation and keep strong belief in yourself. Go and earn name, fame and money and come back to me to tell us your success stories. I would like to share you some inspirational lines well said by the Swami Vivekananda: Take up one idea. Make that one idea your life—think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success.”

Education is not mere accumulation of facts; it is preparation of life itself. The BGES School exemplifies the fact that sky is not the limit in the pursuit of excellence. It is well aware of the importance and significance of the different stages of a students life. The activities of the school are planned to identify and nurture their inherent talents. These activities are planned and prepared meticulously, giving equal importance to academics, co-curricular and extra-curricular activities.

Smt. Mridula Nagar
Deputy Head Mistress

Our teachers are innovators. Today we are in a period of transition where old values are changing. The global influence is predominating due to the explosion of the information technology. By emphasizing each students strengths and interests- and by believing each student- we build self esteem, self advocacy and a solid academic foundation for the betterment of the future generations to come.

When I came here in class 9 I was like a hitchhiker in this tourist bus leading towards a beautiful journey called school life, but as time lapsed, it became the most memorable journey of my life with the guidance of teachers and love from friends. But happiness doesn't last for long and just like every journey, mine also came to end and all of us will go our separate paths in life but the memories and this journey will last forever in the deepest core of my heart. This is truly the best phase of my life and also the one which will be missed the most.

I don't know where to start from, each day in this school was amazing. Spending 5 years in this institution was a privilege. I will always miss the moments spent here, which I will never be able to live again. The golden times with our friends and teachers, the break time masti, the practice session's fun, participating in different activities were some of the most cherished moments of my life. The moments we laughed will one day bring tears to our eyes as we won't be able to find them again. I cannot repay for all that my teachers have done for me, they have made me the person I am today. Becoming the captain of my house has taught me to handle difficult times and to become a leader. I will miss my friends, my teachers, my school and the days I have spent here.

I have imperishable, amaranthine memories attached to mind, with this very school, popularly known as “The Bhawanipur Gujarati Education Society School”. Frankly, I am new to this school but I take pride in the fact that when my former school abandoned me midway, it was this school that rescued me from drowning in my own agitation created by thought of my future especially about my Board Examinations. Despite all this it is very astonishing to me that though being an “alien”, they cooperated with me and treated me as if I were a native of their school. The school has given me everything required for smooth education, and thus I express my gratitude towards this school that is adorned with wonderful teachers.

First of all a big thanks to my school “The Bhawanipur Gujarati Education Society” and respected teachers to help all of us to get registered to the council for Indian Certified of Secondary Education and help us continue normal classes in class 9 from mid-term. I'll always be grateful for this help. Yeah sometimes school irritated me as I had to get up early in the morning but someone said "kuch paane keliye kuch khona parta hai" so I had no other choice than to give up my sleep over school. One thing I guess every student thinks the same is that we cannot remember the date until and unless we go to school. Yes, obviously I have shed streams of tears in schools but how can we learn something without facing problems? I really created many memories with my friends and teachers which is hidden as treasure. Really these memories are worth remembering. At the end thanks a lot to my school for helping me climbing few stairs leading towards my

I joined this school in class 7. I am deeply indebted to the institution for the exposure I have received not only in academics but in extra curricular activities also. I am proud to be a part of the BGES family.
